Unified Communications Made Simple

Unified Communications (UC) refers to a phone system that integrates and enables various communication methods within the business. By unifying phone calls, video conferencing, SMS, email, Live Chat and so on, users can share and access data all from one centralized location, collaborate in real-time and hold audio and video conferences with multiple people. No matter how big or small your company is, the right Unified Communications solution can take your business communications to the next level, helping to improve collaboration, boost productivity, increase mobility and enhance the customer experience.

Simple, affordable and flexible, 3CX has inbuilt UC features included as standard on-premise or in the cloud, all on one user-friendly platform – no need to purchase add-ons or extras.

- ☒ Forward voicemails to inbox, Listen to voicemails without calling in.
- ☒ See the Status of Your Colleagues.
- ☒ Click to Call from Any Browser or CRM.
- ☒ Instant Messaging / Text chat.
- ☒ Faxes are received as PDF files in your email.
- ☒ Set your status to available, away and out of office from your smartphone.

Go Mobile with Android and iOS

With the freedom of VoIP and the flexibility of a smartphone, mobile communications are no longer tied down by your cell phone company. With a business VoIP app for Android or iOS, you can literally take your office extension with you anywhere. A business VoIP App will enable you to answer calls to your office phone extension via your smartphone device. You can also transfer to colleagues without asking customers to call another number. Imagine the cost savings on your company's mobile phone costs.
